

HP ProBook 4 G2i Intel Core Ultra 5 322 14inch WUXGA 16GB 512GB SSD W11P

Model: E0QY6AT#ABB

Manufacturer: HP INC.

EAN: 881767158469

Product Code: 1090143

R31,770

The HP Inc. ProBook 4 G2i Next Gen Notebook is a business-focused laptop designed to support productive work, secure collaboration, and on-the-go reliability. It pairs a 16:10 WUXGA IPS display with anti-glare and low-power technology to provide clear visuals and comfortable long-duration viewing. The system balances responsive everyday performance and AI-enhanced capabilities through an Intel Core Ultra 5 processor and an Intel AI Boost neural processor that accelerate AI tasks for features like Windows Studio Effects and intelligent camera enhancements. Security and manageability are built in with a TPM 2.0 security chip, fingerprint reader, tamper detection, and enterprise-grade protections, while durable design choices and MIL-STD-810H testing help maintain reliability in varied work environments. A broad set of modern ports, PCIe NVMe SSD storage, DDR5 memory, and long compatibility with power delivery make the notebook flexible for hybrid workflows and business connectivity needs.
