The ProLite TF1534MC-B8X is a 15” Open Frame touchscreen monitor designed for integration into kiosks, retail systems, interactive displays and custom installations. Its 10-point PCAP touch technology provides accurate multi-touch operation, while the edge-to-edge glass surface offers durability, scratch resistance and a clean, professional appearance. With IP65-rated front protection, the screen is resistant to dust and splashing water from the front, making it suitable for demanding public and commercial environments. The anti-fingerprint coating helps keep the display clear and easy to use, even with frequent interaction. For applications requiring additional protection, the Touch Through-Glass function allows reliable touch operation through a glass overlay up to 6 mm.
