

SYNOLOGY 8 Bay 2U AMD Ryzen Embedded V1500B 4GB DDR4 Rack Expandable NAS Server

Model: RS1226+

Manufacturer: SYNOLOGY

EAN: 4711174726868

Product Code: 1090372

R39,985

The Synology RackStation RS1226+ provides reliable network storage solutions ideal for small to medium-sized businesses. With its powerful quad-core Ryzen Embedded processor running at 2.2 GHz, this NAS server supports multiple storage configurations and comes equipped with essential network protocols, making it suitable for data-intensive tasks. The 2 x 80 mm fans ensure optimal cooling for sustained operation, while the hot-swap expansion bays allow for hassle-free drive management. Security features include firewall protection, antivirus analysis, and comprehensive support for various network services.

Designed for scalability, the RS1226+ accommodates up to 8 drives in a flexible RAID configuration,
