## R1,061

The Lenovo Legion M220 is a versatile mouse designed for both wired and wireless use, making it ideal for gamers and everyday users. With advanced movement detection technology and a high movement resolution of 5000 DPI, precise cursor control is assured for any task or game. The ergonomic symmetrical design accommodates different grip styles, ensuring comfort during extended use. Featuring RGB backlight with two RGB zones, this mouse allows for personalized lighting effects to match any gaming setup or aesthetic.

Built to withstand intense gaming sessions, the Lenovo Legion M220 boasts a durability rating of 20 million clicks, ensuring longevity and reliability. With seven programmable buttons, it offers customizable controls that cater to individual gaming needs. The M220 supports multiple connectivity options, including Bluetooth and 2.4 GHz, providing flexibility for users to choose their preferred setup. This mouse is also compliant with various standards, ensuring safety and quality in your gaming experience.
