

NETGEAR 24P GE POE+ Smart Switch W/10G SFP+ GS728TXPV3

Model: GS728TXP-300EUS

Manufacturer: NETGEAR

EAN: 606449171068

Product Code: 1092052

R11,277

The NETGEAR Smart GS728TXP switch is designed to meet the demands of modern networks, offering advanced features and robust security. With 24 PoE+ ports and 4 SFP+ ports, it provides versatile connectivity options for a variety of devices. The switch supports a bandwidth of 128 Gbps and a forwarding rate of 95.24 Mpps, ensuring efficient data processing and minimal latency. Advanced Layer 3 Lite capabilities allow for efficient routing and network management. Security is a priority, with support for RADIUS and TACACS+ authentication, as well as TLS 1.2 and TLS 1.3 encryption, ensuring secure access and data transmission. Additionally, the GS728TXP is built for durability, with an MTBF of 1,252,990 hours and dual fans for cooling, making it a reliable choice for any network.
