GEEKOM GeekBook X16 Pro Laptop with Intel Core Ultra 5 125U, 16GB RAM, 500GB Storage, Windows 11 Pro

The GEEKOM GeekBook X16 Pro is a modern premium laptop that combines high performance with an exceptionally slim and lightweight design. It features a magnesium alloy chassis crafted using precision CNC machining, is just 6 mm thick at its thinnest point, and weighs only 1299 g, making it perfect for both office work and frequent travel. It is equipped with an Intel Core Ultra 5 processor,

Intel Arc graphics, 16 GB of 7500 MHz LPDDR5x memory, and a 500 GB PCIe Gen4 SSD, offering smooth performance even during demanding tasks. Also noteworthy are the large 16-inch 2.5K display, 120 Hz refresh rate, and pre-installed Windows 11.

AI-ready performance and Intel Arc graphics

The laptop utilizes an Intel Core Ultra 5 processor and Intel Arc Graphics, ensuring high performance for both everyday tasks and more advanced applications. The design delivers up to 35W of power, allowing it to efficiently handle photo editing, 3D rendering, data analysis, and creative work. The integrated NPU accelerates AI-powered tasks such as real-time transcription, noise reduction, and support for local AI models without an internet connection. Meanwhile, fast LPDDR5x memory and a PCIe 4.0 SSD ensure lightning-fast system and application boot times, while the IceBlade cooling system with dual fans and heat pipes maintains high performance while keeping the system quiet.

Large 2.5K display and comfortable daily use

The GeekBook X16 Pro features a 16-inch IPS display with 2.5K resolution and a 16:10 aspect ratio, providing a larger workspace and more comfortable handling of documents or multiple windows simultaneously. 100% sRGB color gamut coverage guarantees natural and accurate colors, which will be appreciated by those involved in design, video creation, or presentations. Additionally, narrow bezels achieve a screen-to-body ratio of nearly 90%. User comfort is further enhanced by a backlit full-size keyboard with a numeric keypad, a large, precise touchpad, and a fingerprint reader integrated into the power button, which enables fast and secure login via Windows Hello. The laptop also supports one-handed opening thanks to a carefully designed hinge, and its screen automatically activates when opened. The GeekBook X16 is also equipped with two speakers supporting DTS:X Ultra, which deliver immersive, more cinematic sound with clear dialogue and greater detail.

A complete set of ports and various connectivity options

The GeekBook X16 Pro is equipped with a wide range of ports, allowing you to conveniently connect monitors, accessories, and high-speed external storage without the need for adapters. You have access to a USB4 port with a bandwidth of up to 40 Gbps, USB-C 3.2 Gen2 (up to 10 Gbps), two USB-A 3.2 Gen1 ports, HDMI 2.0, a Micro SD card reader, and a 3.5 mm audio jack. This configuration works well for both office work and setting up a comprehensive workstation for design or multimedia

editing. Stable wireless connectivity is provided by Wi-Fi 6E and Bluetooth 5.4, which ensure fast data transfer, low latency, and seamless compatibility with modern accessories.

Slim design, long battery life, and ready for action

The gray chassis combines a minimalist design with high durability and a matte finish that feels pleasant to the touch. The slim design and light weight mean the laptop fits easily into a bag or backpack. The 77 Wh battery provides very long battery life—up to 18 hours—making the device perfect for all-day work outside the office or while traveling. The package also includes a compact 65W PD GaN charger with a 1.8m USB-C cable, which takes up less space than traditional power adapters. The package is rounded out by the pre-installed Windows 11 system, making the laptop ready to use almost immediately after startup.

Manufacturer	GEEKOM
Model	GeekBook X16 Pro
Processor	Intel Core Ultra 5 125U
Graphics	Intel Arc Graphics
Power	35 W
RAM	16 GB LPDDR5x 7500 MHz
Storage	500 GB SSD PCIe Gen4 M.2 2280
Additional storage slot	M.2 2230 PCIe Gen4
Display	16" IPS
Resolution	2.5K
Refresh rate	120 Hz
Color gamut	100% sRGB
Aspect ratio	16:10
Camera	2 MP with physical on/off switch and AI Auto-Framing
