GEEKOM GeekBook X14 Pro Laptop with Intel Core Ultra 9-185H, 32GB RAM, 1TB SSD, Windows 11 Pro

The GEEKOM GeekBook X14 Pro is an ultra-lightweight premium laptop that combines high performance with an exceptionally portable design. It features a magnesium alloy chassis, weighs just 999 g, and is only 6 mm thick at its thinnest point, making it ideal for office work, travel, or everyday use on the go. Additional highlights include an Intel Core Ultra 9 processor, Intel Arc

graphics, 32 GB of 7500 MHz LPDDR5X memory, and a fast 1 TB PCIe 4.0 SSD, which ensures smooth multitasking, rapid app launches, and efficient performance even during more demanding tasks. What's more, the pre-installed Windows 11 Pro system lets you get to work almost immediately after booting up the device.

Performance powered by AI and Intel Arc Graphics

The laptop is equipped with an Intel Core Ultra processor and integrated Intel Arc Graphics supporting ray tracing and AI acceleration. As a result, it handles video editing, photo processing, and graphics rendering with ease, as well as more advanced multithreaded tasks. The integrated NPU supports AI features such as intelligent noise reduction, automatic face framing during video calls, background blur, and local AI model support without an internet connection. The laptop also handles tasks related to image enhancement, graphics scaling, and visual content optimization while maintaining high energy efficiency. High-performance LPDDR5X memory and a PCIe 4.0 SSD further accelerate system and application performance.

Lightweight, premium construction

The GeekBook X14 Pro is crafted from a durable magnesium alloy that offers the perfect balance of durability and light weight. The matte finish of the chassis is pleasant to the touch and gives the laptop an elegant, professional look that stands out during both business meetings and everyday work. Minimalist styling and a slim profile highlight the device's modern design, while precision-crafted details enhance user comfort. The laptop is also equipped with a backlit keyboard and a fingerprint reader integrated into the power button, enabling quick and secure login. The refined hinge allows you to comfortably open the lid with one hand and keeps the screen stable while working.

2.8K OLED Display and DTS:X Ultra Audio

The laptop features a 14-inch 2.8K OLED display with a 16:10 aspect ratio, delivering exceptionally detailed images, deep blacks, and high contrast. 100% DCI-P3 color gamut coverage ensures natural and precise color reproduction, which is ideal for design, photo editing, or viewing HDR content. Above the screen is a 2 MP Full HD 1080p camera with digital privacy protection and AI Auto-Framing, which comes in handy during video conferences and online meetings. High-quality sound is

provided by two speakers with DTS:X Ultra support, offering a more immersive, cinematic sound with clear dialogue and rich detail. Added to this is a dual-microphone system that further enhances voice communication quality.

Long battery life and fast charging

The 72 Wh battery provides up to 16 hours of video playback, making the laptop ideal for all-day work, study, and travel. You won't have to plug it in very often! In addition, 65W PD GaN fast-charging technology allows you to quickly recharge and regain hours of battery life in just about 30 minutes. The package is rounded out by a portable USB-C charger that takes up little space and makes it more convenient to carry.

Effective cooling and quiet operation

Despite its ultra-slim design, the GeekBook X14 Pro features an efficient cooling system based on a quiet fan and a dual heat pipe system. This solution ensures stable operation of the CPU and GPU at up to 35W even under prolonged heavy loads. An intelligent temperature control system automatically adjusts fan speeds to current tasks, ensuring effective cooling and very quiet operation. This makes the laptop ideal for quiet environments such as an office, library, or conference room.

Useful ports and fast wireless connectivity

The laptop is equipped with two USB 4.0 ports, which offer transfer speeds of up to 40 Gbps and allow you to connect high-speed external storage devices, high-resolution monitors, or modern docking stations. You also have access to HDMI 2.0, USB-A 3.2 Gen1, and a 3.5 mm audio jack. As a result, the GeekBox X14 Pro works seamlessly with both modern and older accessories. Wireless connectivity is handled by Wi-Fi 6E and Bluetooth 5.4, which ensure a fast and stable internet connection and reliable communication with peripheral devices. This setup allows you to conveniently create a mobile workspace virtually anywhere.
