aerodynamic shell that minimizes the peripheral's resistance and weight to provide a 55g mouse so fast and light that it will feel like you have nothing in your hand.

RGB CHROMA LIGHTING AVAILABLE IN 3 COLORS

Available in three colors: black, white and pink. Choose the one that best suits your setup!

12800 DPI OPTICAL SENSOR

Featuring a custom A825PRO optical sensor designed to guarantee extreme action and exceptional control: up to 12800 DPI for unlimited gaming. But beyond the high DPI figure, this optic offers absolute precision at low DPI settings and a polling rate of up to 1000Hz, performance unmatched by simpler optics.

HUANO PROGRAMMABLE MECHANICAL SWITCHES

The MM55 mouse is equipped with high-performance HUANO mechanical switches to ensure full speed of action when playing, providing absolute control of every movement in the game and extending the life of your device to the maximum.

FEATHER PARACORD DESIGN CABLE

The MM55's cable features a special Feather Paracord design, designed to keep the weight of the mouse to a minimum. Thanks to a construction that offers flexibility, durability and lightness, it reduces resistance to a minimum for a sensation similar to that of a wireless mouse.

PERSONALIZE YOUR EXPERIENCE

Mars Gaming's downloadable software lets you customize every aspect of your mouse with ease, from RGB Chroma LED lighting and effects to different programmable macros, as well as button functions and performance parameters. Design your MM55 the way you like it, adapt it to your needs and get a professional tool tailored to your needs.

UP TO 16.8 MILLION COLORS

The MM55's Chroma RGB lighting system features up to 16.8 million colors so you can choose the style that best suits your setup. Through its downloadable software, you can fully design the light with a comprehensive control panel that lets you select tones, effects, and lighting modes.
