Model: PRO MAX EDGE AI+ 11M-005EU

Manufacturer: MSI

EAN: 4711377472173

Product Code: 1096977

R89,494

The Future of AI Starts Here

Tailored for modern leadership and high-security institutions, the PRO MAX EDGE AI+ redefines local AI deployment and complex data analytics. Its minimalist 4L aluminum chassis houses a dedicated AI engine with exceptional processing power. You can experience a seamless and focused workflow without cloud dependency, empowering your team to lead with quiet confidence.

Business Intelligence, Empowering Teams to Lead.

AMD Ryzen™ AI Max+ 395 Processor

The PRO MAX EDGE AI+ is equipped with the AMD Ryzen™ AI Max+ 395 processor, packing 16 cores, 32 threads, a 64MB L3 cache, and built-in Radeon™ 8060S graphics. Paired with a breakthrough 128GB Unified Memory that can allocate up to 96GB for GPU VRAM, it completely shatters hardware bottlenecks, allowing you to run massive 120B LLMs 100% offline.

YOUR AI, UNBOUND. MASSIVE MODELS, NOW LOCAL.

Up to 128 GB Unified Memory

The PRO MAX EDGE AI+ lets you scale your models, not your limitations. With 128GB of LPDDR5X Unified Memory supporting 8000 MT/s data transfer, and up to 96GB allocatable to graphics, you can run massive AI models entirely on-device. Your data never leaves the office. No cloud reliance, no security compromises. This is a high-performance, private intelligence core that stays under your roof.

Truly Private Power. On-device AI

100% Offline. Direct 120B Model Support.

Take control of your AI. Run 109B models locally at 15 Tokens/s, with support for up to 120B under total physical isolation. From sensitive contract analysis to private RAG workflows, all data remains on-device and never leaves the office. No monthly subscriptions, no usage limits, and zero cloud risks. A high-performance, private intelligence core built for your team.

MAXIMIZE LOCAL LLM EFFICIENCY Fast, Rock-Solid Local Inference.

Supercharge your edge deployments with PRO MAX EDGE AI+. Designed to run massive 120B LLMs with ease, this platform delivers maximum efficiency where it matters most. Look at the data below to see our class-leading VRAM efficiency and exceptional TPS performance.

Uncompromising dual performance.

Radeon™ 8060S Graphics

The PRO MAX EDGE AI+ is powered by the AMD Ryzen™ AI Max+ 395 with built-in Radeon™ 8060S graphics. This system drastically reduces processing times for professional 3D rendering and high-res video editing. It easily sustains an 80 FPS average at 2K resolution in AAA game titles. A dual-purpose workstation built for high-pressure productivity and premium off-duty entertainment.

Dedicated Storage for Local AI.

Dual PCIe Gen 4 M.2 SSD Slots

The PRO MAX EDGE AI+'s built-in dual PCIe Gen 4 M.2 slots easily hold multiple large language models and confidential databases. High bandwidth directly eliminates model startup delays. Accelerated data loading and retrieval ensure your business queries are rapid and accurate.

Near-Silent Productivity.

MSI Frozr AI PRO

Designed for heavy AI tasks, this system maintains peak performance without the noise. Experience a stable, high-output environment that keeps your projects moving forward in silence.

Instant AI Deployment

Powered by Next-Gen Wi-Fi 7.

The advanced Wi-Fi 7 module delivers extreme bandwidth and ultra-low latency to your business environment. Massive multi-gigabyte LLMs can now be effortlessly downloaded and deployed in a fraction of the time, keeping your team perpetually one step ahead.

Limitless Connectivity.

Master Your Multitasking.

Maximize your workspace with HDMI 2.1, DP 1.4, and dual 40Gbps Type-C ports, supporting up to four independent displays. Seamlessly switch between headset and speakers with front and rear audio jacks, and enjoy instant data transfers via high-speed USB and an SD 4.0 card reader.

From Desktop to Distributed Cluster: Scaling Your Private Intelligence Hub

Flexible multi-unit clustering breaks through single-machine VRAM limitations, allowing individual researchers and small studios to unlock top-tier open-source models locally—enabling larger parameters, smarter reasoning, and the ability to seamlessly handle ultra-long contexts.

Free Up Workspace. Elevate Professional Aesthetics.

Minimalist 4-Liter Compact PC

High performance no longer means a massive footprint. The PRO MAX EDGE AI+ abandons bulky desktop designs. Its compact 4-liter aluminum chassis features fine sandblasting and precision diamond cuts for an understated, premium finish. Blurring the line between tech hardware and luxury goods, it is crafted for professionals who demand workspace elegance.

Save your desk space for what truly matters.

Built-in 300W Power Supply.

True minimalist design means no hidden burdens. We've integrated a power supply into a compact 4L chassis, eliminating the need for bulky external adapters. By removing cable clutter and visual distractions, all you need is a single power cord to keep your workspace clean and sharp. Save your space for what truly matters.

Master the Power. Instantly. Three-Stage Tactile Power Switch

The PRO MAX EDGE AI+ features a dedicated physical switch for instant, hardware-level power management. Without opening any software or control panels, you can directly toggle the system power across three calibrated profiles to optimize performance, thermals, and acoustics.
