

Seagate Pipeline HD internal hard drive 1 TB 5900 RPM 64 MB Serial ATA II

Model: ST1000VM002

Manufacturer: SEAGATE

Product Code: 11228

R761 R877

Always on. Always reliable.

Media technology demands both reliability and energy efficiency. Pipeline HD® hard drives deliver with the industry's lowest overall power consumption profile, coolest operating temperatures, and a best-in-industry AFR.

Low-power profiles help DVR manufacturers achieve reduced overall power requirements and support Energy Star compliance.

Delivers 24/7 reliability.

With an AFR of 0.55%, Pipeline HD® hard drives feature industry-leading reliability for devices like DVRs and home theater systems.

And the Pipeline HD drive can take the heat in the most demanding 24x7 devices. This hard drive

improves system reliability with a capability of operating at temperatures of up to 75° C.

Key to the Pipeline HD drive's remarkable reliability is the reduced heat output enabled by its low-power consumption. Pipeline HD hard drives feature:

The industry's lowest overall power consumption profile

40% less heat production than comparable drives during the same duty cycle

Performance and low-power consumption.

Pipeline HD hard drives meet a rising demand for energy-conserving consumer electronics without compromising performance.

And Seagate is committed to environmental stewardship that goes beyond reduced power consumption. In fact, Pipeline HD drives support a comprehensive sustainability value proposition.

Seagate and sustainability.

Every Pipeline HD hard drive incorporates a proactive approach to sustainability and environmental stewardship.

50% of the materials used in the manufacture of the Pipeline HD hard drive come from recycled sources

70% of the drive's materials are recyclable

Meets all RoHS and new REACH standards

Low halogen use

Perfect when you need to:

Build digital video recorders, home theater PCs, karaoke and audio jukeboxes

Increase the storage capacity of DVR and media center applications

Enhance performance and storage in cable, satellite and IPTV set-top boxes
