

Jabra Perform Go 4

Model: 5132-119

Manufacturer: JABRA

EAN: 5706991036534

Product Code: 1123119

R2,732

For clearer calls on the move

Go further. Sound clearer.

Hear clearly. Be heard confidently - wherever work takes you.

When your workday happens on the move, your calls need to keep up. Jabra Perform Go 4 is a lightweight single-ear, hands-free Bluetooth® headset built for mobile workers who rely on clear conversations - from delivery drivers and tradespeople to contractors and couriers. Where hearing and being heard clearly makes the difference between getting the job done and getting it right first time.

With up to 93% microphone noise cancellation* and intelligent algorithms that isolate your voice, calls stay clear and confident whether you're onsite, on the road, or in and out of your vehicle. Perform Go 4 stays comfortable and secure all day, with intuitive controls designed so you never have to stop what you're doing to take a call. You focus on the job. We'll make sure the call is clear.

HEAR AND BE HEARD

Clearer conversations, every time

Working on the go almost always means dealing with some background noise. Perform Go 4 uses advanced noise cancelling technology and dual-mic beamforming to remove up to 93%* of background noise, making it one of our clearest wireless mono headsets with mic for on-the-go calls. Your voice is isolated from engines, tools, traffic, and wind so callers hear you - not your surroundings.

And with a powerful 10mm speaker, this single-ear Bluetooth headset ensures you hear the caller clearly too, even in noisy locations.

PHONE-FREE CONVENIENCE

Calls without carrying your phone

With up to 300ft/100m of dependable Bluetooth® range, Perform Go 4 delivers true hands-free freedom. Leave your phone in the tool belt, jacket, or charging cradle and stay connected as you move across a workshop, site, or warehouse.

Intuitive controls - including the flip-to-answer/mute microphone boom arm - let you take or mute calls without reaching for your phone, even when you're wearing gloves. Voice controls also allow hands-free call handling, enabling safer, more efficient movement throughout the day.

Perform Go 4 keeps you focused on work, not your phone.

DESIGNED FOR YOUR ON-THE-GO DAY

Built to stay secure and comfortable

Perform Go 4 is designed for professionals who work everywhere - driving between jobs, walking sites, carrying equipment, or stepping in and out of vehicles. Its ultra-light 20g design (that's about the same as an AA battery) sits securely on either ear, staying in place during active tasks while remaining comfortable all day - ideal for anyone who prefers a single-ear headset that doesn't get in the way.

CONNECTIVITY & CUSTOMIZATION

Stay connected your way

Multi-connect keeps you paired to two devices at once - such as your work and personal phone - so you never miss the calls that matter.

It's also supported by the Jabra Plus Mobile App, offering easy setup, updates, and customization of your wireless mono headset, including configuring the headset button for mute/unmute, checking battery status, and more.

And if you misplace your headset onsite, the app's 'Find my Jabra' feature helps you locate it quickly.

All-day performance that keeps up with you

With up to 11 hours of talk time - 10% longer than the nearest competitor** - Perform Go 4 is built for long shifts and demanding days. A replaceable battery extends the life of the device and supports more sustainable long-term use.
