Seagate SmartAlign™ technology simplifies your transition to the Advanced Format (AF), 4K standard. There is no need for time-consuming integration utilities required by similar AF drives.

## Key Features and Benefits

-A unique 5900-RPM speed delivers the fastest-performance eco friendly drive available.
-Seagate SmartAlign technology allows you to get all the benefits of the new Advanced Format 4K sector standard without any hassle–no utilities, no extra steps.
-The SATA 6Gb/s interface and 64MB cache maximize performance.
-Low power consumption combined with leadership in the use of environmental compliance materials means you don't have to sacrifice environmental stewardship for performance.
-Cool, quiet operation
