The latest smartphones feature increasingly powerful camera systems. However, all this advanced technology amounts to nothing if you scratch or crack your lenses that would leave permanent scars on future photos. With the PanzerGlass® PicturePerfect Camera Lens Protector, your camera lenses are safe from accidental drops on stone-hard floors, bumps against sharp corners, and the screeching kiss of keys in your pocket. And if you're worried the extra protection will cause image distortion, you can rest easy: this camera lens protector doesn't affect the clarity of your lenses or the quality of your photos – it just gives you a bit more peace of mind.

The PicturePerfect Camera Lens Protector protects and prolongs the lifetime of your phone so that one day you can pass it on to someone else who will love it just as much as you do. This is one way of working toward a more sustainable future. Another is to use less packaging: In 2024, we reduced the amount of paper in our PanzerGlass® core product packaging design by an average of 66%* and of course this product comes in a recyclable FSC™-certified box.

*Reduction from 2022-2024 measured by comparing selected products from the PanzerGlass® core range.
