

Seagate NL35 Series 400GB HDD internal hard drive 7200 RPM 8 MB 3.5" Serial ATA

Model: ST3400832NS

Manufacturer: SEAGATE

Product Code: 11448

R529 ~~R853~~

NL35 Series is a family of high-capacity, low-cost-per-GB enterprise disc drives that fills the price/performance gap between online and offline storage. NL35 Series SATA drives are stronger and smarter than other SATA drives, making them ideal for RAID-based nearline applications. Delivering the massive capacity, high reliability and RAID-friendly integration features required by capacity-intensive, 24x7 nearline applications, NL35 Series drives enable nearline RAID systems that perform more reliably and are easier to build and support.

- RAID-friendly integration features increase system uptime, optimize performance and ease management
- Superior reliability enables operation in nearline RAID environments without compromising application performance or availability
- Industry's highest capacity ensures maximum scalability in dynamic, capacity-intensive nearline
