SSD + HDD – The best of both worlds.

- Seagate Laptop SSHDs integrate NAND flash solid-state storage with traditional hard drive storage, creating a laptop drive with the speed of solid state and the capacity of a hard drive.
- No need to compromise performance over capacity
- Installs and works like a typical hard drive
- Unmatched data integrity and reliability by maximising the strengths of both flash and hard drive storage

SSHD is affordable.

- SSHDs fuse the strength of SSD and HDD into one affordable and powerful device. You do not have to compromise capacity over performance anymore. With an SSHD, you can have it all. It is the
