ONIKUMA G67 Gaming Keyboard

Model: G67

Manufacturer: ONIKUMA

EAN: 6972470564129

Product Code: 1175464

R1,700

ONIKUMA G67 Gaming Keyboard

ONIKUMA G67 is a compact, wired gaming keyboard equipped with 67 magnetic switches that provide ultra-fast response time and exceptional precision. Its state-of-the-art design and striking ARGB backlighting (Addressable Red Green Blue, addressable backlighting based on three primary colors) guarantee not only gaming comfort, but also a stylish look on any desk. In addition, an 8 kHz polling rate and a latency of just 0.125 ms make it ideal for gamers who expect reliable performance in any situation.

High-precision magnetic switches

The ONIKUMA G67 keyboard uses magnetic switches, which are distinguished by an actuation point with an accuracy of 0.02 mm. Such high precision translates into even faster response and better key feel - ideal for both FPS (First Person Shooter) gamers and people who do a lot of typing.

Compact 67-key layout

The 67-key layout is an excellent compromise between functionality and space saving. The G67 offers full control and convenience while maintaining a compact size - it will work even on smaller desks.

Super-fast refresh rate

With a polling rate as high as 8 kHz, every keystroke is registered instantly. This is a level found in e-sports equipment - a guarantee of advantage in dynamic games.

ARGB backlighting

It doesn't just work, it looks great too. Striking ARGB backlighting gives the keyboard a unique style that can be matched with the rest of the equipment on the gaming desk.

Robust construction and modern connectivity

The keyboard is designed with durability in mind - its compact body and symmetrical finishes improve ergonomics and comfort. In addition, the USB-C (Universal Serial Bus Type C, a universal connector for data and power transfer) connector provides a stable connection to your computer, without lag or interference.

Included

- Keyboard
- USB-A to USB-C cable
- User manual
