Colmi M06 Smartband (rose gold)

Looking for an elegant alternative to classic fitness trackers? Meet the Colmi M06—a smart bracelet that offers a wide range of health monitoring features while looking like stylish, classic jewelry. With a slim design weighing just about 12 g, an adjustable circumference of up to 230 mm, an IP68 water resistance rating, and a battery life of 5 to 7 days, this device is perfect for everyday use. The smartband monitors heart rate, blood oxygen levels, sleep, stress levels, physical activity, and the menstrual cycle, and the Da Halo app provides convenient access to all this data.

Jewelry and modern technology in one

The Colmi M06 stands out with its stylish design inspired by classic jewelry. The stainless steel case, slim profile, and subtle embellishments make the bracelet a perfect match for both casual and more elegant outfits. Its adjustable design allows it to fit wrists up to 230 mm in circumference, and its light weight (12 g) enhances wearing comfort.

Take Care of Your Health

The bracelet allows for precise monitoring of key vital signs. It measures heart rate and blood oxygen levels, and also analyzes stress levels. The system can also send notifications about heart-related irregularities, providing constant access to the most important information about your physical condition.

Advanced Sleep Analysis

The Colmi M06 tracks deep sleep, light sleep, and REM sleep, allowing you to gain a more accurate understanding of your nighttime habits. The app analyzes the collected data and then provides detailed statistics and tips to help you improve the quality of your rest. This makes it easier for you to ensure proper recovery and maintain your well-being every day.

Menstrual Cycle Tracking

The bracelet offers a smart system for tracking your menstrual cycle. When paired with the app, you can, among other things, create charts and predict the dates of your period and ovulation. This feature allows you to better and more conveniently track changes in your body—without guesswork and without having to keep track of a calendar yourself.

Your Workout Partner

The smartband offers various sports modes—available options include running, cycling, walking, and swimming. During workouts, the device records information on the number of steps, distance covered, pace, calories burned, and heart rate. This allows you to analyze your progress in real time and achieve your goals more effectively.

Water-Resistant Design

The wristband features an IP68 water resistance rating, making it ideal for everyday activities. Splashes, rain, or contact with water are no problem—you don't have to take it off for every activity, such as when you're taking a shower or washing your hands.

Long battery life

The 22 mAh battery provides 5 to 7 days of use on a single charge—so you can freely use the wristband during workouts or trips. The device supports magnetic charging, and a full charge takes between 1.5 and 2 hours.

Wide compatibility, convenient use

The device supports Bluetooth 5.3 and is compatible with Android 8.0 (or later) and iOS 13.0 (or later). The Da Halo app is available in many languages, including Polish, English, German, French, Italian, and Spanish, among others, allowing you to conveniently use all the bracelet's features. An additional convenience is the ability to remotely control your smartphone's camera using simple gestures, which makes taking photos much easier.
