

HP 275C Wireless Mouse and Keyboard Combo EURO

Model: D4YK6AA#ABB

Manufacturer: HP INC.

Product Code: 1177004

R1,771

The HP 275C wireless keyboard and mouse set is designed for everyday productivity with a focus on comfortable typing and simple connectivity. The full-size, 3-zone keyboard provides a familiar layout and low-profile plunger keys that help maintain a quiet, responsive typing experience, while the ambidextrous mouse offers reliable optical tracking at 1200 DPI for smooth cursor control. A Plug-and-Play 2.4 GHz USB wireless receiver and up to 10 m operating distance keep the workspace tidy and free from cable clutter, and the built-in LED battery level indicator helps avoid unexpected downtime. Durable details such as a spill-resistant keyboard, long key life, and included AAA batteries combine with a design that uses 75% post-consumer recycled plastic to deliver practical reliability with reduced environmental impact.
