

HPE Networking CW 2150 16p 10M/100M/1G PoE+ 4p SFP+ 1G/10G 248W Switch

Model: S6X55A

Manufacturer: HEWLETT PACKARD ENTERPRISE

EAN: 190017821207

Product Code: 1177325

R18,468

The HPE Networking Comware 5150L 16p 10M/100M/1G PoE+ 4p SFP+ 1G/10G 248W Switch offers performance and reliability tailored for networking needs. With support for up to 16 Gigabit Ethernet ports and 4 SFP+ ports, this switch accommodates a range of devices and configurations, ensuring efficient data transmission across your network. Its layer 3 lite switching capabilities and various routing protocols, including RIP-2 and policy-based routing, enhance your network's agility and adaptability.

Designed for rack-mountable setups, the switch is stackable with a maximum of 9 units, making it suitable for growing networking environments. Quality of Service (QoS) features ensure prioritization of critical traffic, while Power over Ethernet (PoE+) with a budget of 248 W facilitates simple connections to powered devices. With an operating temperature range from -5°C to 50°C, this switch allows dependable operation even in challenging conditions.
