

HPE Networking CW 2050 20p 10/100/1000BASE- T 4p Smart Rate 1/2.5GbE 4p SFP 1G/2.5G Switch

Model: S6X69A

Manufacturer: HEWLETT PACKARD ENTERPRISE

Product Code: 1177327

R11,095

The HPE Networking Comware 5050EI is a versatile rack-mountable switch designed to meet the demanding needs of modern networking environments. With 20 ports supporting 10/100/1000Base-T and additional high-speed 1/2.5GBase-X uplinks, this switch ensures robust and flexible connectivity options. The stackable design allows for easy expansion, enabling the management of up to 9 units for increased capacity and redundancy. Advanced management capabilities, including support for Layer 3 routing protocols, RMON, and intelligent resilient networking, enhance operational efficiency and flexibility of network configurations.

With a durable operational temperature range from -5°C to 45°C, the switch is built to withstand various environmental conditions. It features a low latency of less than 5 µs and a substantial switching capacity of 80 Gbps, ensuring rapid data throughput of 60 Mpps. Equipped with a powerful ARM processor and ample memory resources, including 1 GB of flash and 2 GB of SDRAM, the HPE

5050EI is engineered to facilitate high performance while maintaining ease of management and
