

HPE Networking CW 2050 24p 10/100/1000BT PoE+ 4p SFP 1G/2.5G 420W Switch

Model: S6X72A

Manufacturer: HEWLETT PACKARD ENTERPRISE

EAN: 190017823836

Product Code: 1177328

R19,985

The HPE Networking Comware 5050EI switch is a robust solution designed to enhance network performance and reliability. With 24 ports including 20 10/100/1000Base-T PoE+ ports and 4 1/2.5GBase-X SFP ports for uplink and stacking, it accommodates diverse networking needs while providing efficient power management. The managed switch supports both PoE+ and PoE++ capabilities with a total power budget of 420 W, ensuring that connected devices receive adequate power for optimal operation.

This rack-mountable switch features a switching capacity of up to 80 Gbps and a throughput of 60 Mpps, delivering non-blocking bandwidth. Its fanless design promotes silent operation, while support for IPv6 and Quality of Service (QoS) features positions it well for modern networking demands. With remote management capabilities using CLI, SNMP, and REST API, network administrators can easily control and monitor this dependable switch in various environments.
