

LENOVO V100q Intel N100 8GB 128GB W11P 1yCI

Model: 13GE006GMH

Manufacturer: LENOVO

Product Code: 1177335

R13,926

The Lenovo V100q 13GE is a compact personal computer that delivers performance in a small form factor. With an ultra small design, it fits seamlessly into any workspace, offering a powerful SSD for quick data access and efficient multitasking. Equipped with Intel N-series processors and DDR5 RAM, this device ensures smooth operation for everyday tasks and applications.

Connectivity is a strong suit of the Lenovo V100q, featuring multiple ports that include HDMI, USB 3.2 Gen 2, and DisplayPort, allowing for versatile options. Additionally, it supports advanced wireless protocols, including Wi-Fi 6 and Bluetooth 5.2, enhancing your networking capabilities. Designed with security in mind, it includes features like a chassis intrusion switch and a Kensington security slot, making it a reliable choice for both personal and professional use.
