Model: D54DLAA#ABB

Manufacturer: HP INC.

Product Code: 1177337

R1,463

The HP 175C keyboard and mouse set is designed for everyday productivity at a wired desktop setup, combining a full-size keyboard with a three-button optical mouse for familiar, reliable input. The keyboard brings dedicated shortcut keys for Copilot, dictation, emoji, show desktop, and PC lock, plus a numeric keypad and adjustable height for comfortable typing. The mouse delivers smooth optical tracking at 1200 DPI and responsive three-button control for common navigation tasks. Built for durability and practical use, the set features plunger key technology with a 10 million keystroke life, a spill-resistant keyboard surface, and a 1.8 m USB-A cable for flexible placement. The product also uses 75% post-consumer recycled plastic to reduce environmental impact while meeting a range of international compliance standards.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
