

SANDISK Portable SSD Crown V3 USB 3.2 Gen 2 1TB External Drives 1000MB/s Read

Model: SDSSDE31-1T00-G25

Manufacturer: SANDISK

EAN: 619659232498

Product Code: 1177365

R5,192

The SanDisk V3 is a reliable external hard drive designed to meet the needs of users seeking portable storage solutions. With a capacity of 1 TB, this solid-state drive provides ample space to store important files, documents, and media. Utilizing USB 3.2 Gen 2 technology, it ensures high-speed data transfer with an internal data rate of 1000 MBps, making file access and management more efficient. The compact design makes it suitable for on-the-go use, providing a convenient way to carry essential data wherever needed. This external hard drive is practical and built to withstand the rigors of daily use. Its shock-resistant feature helps protect against accidental drops and shocks, allowing for peace of mind when storing valuable data. The USB-C connector simplifies connectivity, making it compatible with a wide range of devices. The SanDisk V3 is a choice for anyone looking to expand their data storage capabilities without compromising on portability or speed.
