R3,336

The SanDisk V3 external hard drive offers portable storage with a capacity of 500 GB, perfect for users who need to carry their data on the go. Featuring a USB-C port and a USB 3.2 Gen 2 interface, it allows for fast data transfer rates of up to 1000 MBps, ensuring that files can be moved quickly and efficiently. With its shock-resistant design, this solid-state drive provides peace of mind during travel, protecting valuable content from accidental drops and bumps.
