Lenovo ThinkPad T14s Gen 7 21YU is a thin and portable business notebook designed to support productivity, collaboration, and secure computing on the go. The 14-inch IPS WUXGA display delivers a clear, anti-glare workspace with an 88% screen-to-body ratio for more usable screen area, while a 5 megapixel webcam with privacy shutter and dual-array far-field microphones help keep video calls clear and private. Connectivity options include multiple Thunderbolt 4/DisplayPort 2.1 USB-C ports with Power Delivery, an HDMI port with 4K support, and Wi-Fi 7 with Bluetooth 5.4 to maintain fast,

reliable access to networks and peripherals. Security and manageability are supported by a discrete TPM 2.0 security chip and MIL-STD-810H testing for durability, and a built-in neural processor and Copilot+ PC capabilities provide hardware-accelerated AI support for compatible workflows. The combination of aluminum and carbon fiber hybrid materials, long-memory LPDDR5X configuration, Dolby Atmos-compliant stereo speakers, and a 65 watt USB-C charger makes this system suitable for professionals who need a balanced mix of performance, mobility, and security.
