Product Code: 1177504

R35,610

The Lenovo ThinkCentre neo 50q Gen 7 is designed for users seeking a compact and efficient desktop solution. This ultra small form factor PC maximizes productivity with a powerful Intel Core i7 processor featuring six cores and a boost speed of up to 4.8 GHz. With an installation of 16 GB DDR5 RAM and a PCI Express NVMe SSD, users can expect quick load times and smooth multitasking, making it suitable for any work environment.

Environmentally conscious consumers will appreciate that the ThinkCentre neo 50q Gen 7 is EPEAT Gold certified and ENERGY STAR certified, ensuring low energy consumption and a commitment to sustainable computing. Connectivity options include USB-C and HDMI, providing a variety of ports for peripherals. With integrated audio capabilities and wireless LAN support, this desktop is a reliable solution for any professional or personal task.
