

**Samsung 4GB
DDR3 1333MHz
Unbuffered
SODIMM
memory module
1 x 4 GB 204-pin
SO-DIMM**

Model: M471B5273DH0-CH9

Manufacturer: SAMSUNG

Product Code: 1177983

R1,731

Why Samsung Memory?

Samsung offers the industry's broadest memory portfolio and has maintained its leadership in memory technology for 17 straight years. Its DRAM, flash and SRAM products are found in computers-from ultra-mobile portables to powerful servers-and in a wide range of handheld devices such as smartphones and MP3 players. Samsung also delivers the industry's widest line of storage products. These include optical and hard disk drives as well as flash storage, such as the all-flash Solid State Drive and a range of embedded and removable flash storage products.
