Huion Kamvas 13 GEN 3 GS1333 graphics tablet

Looking for a mobile graphics tablet that fits in your bag, but doesn't compromise on quality? The Kamvas 13 (Gen 3) is a modern, refreshed version of the bestselling model - with a compact, lighter chassis and PenTech 4.0 technology. With a Full HD matte screen, accurate color reproduction and features that streamline your workflow, it's the perfect starter tool, but also a great option for professionals working in the field.

Compact, lightweight, ready to go

With a weight of just 865 grams and a new, smaller chassis (8% slimmer than its predecessor), the Kamvas 13 (Gen 3) is the perfect travel companion - it will fit in any bag. The 13.3-inch Full HD (1920 x 1080 px) screen provides enough workspace for drawing, sketching or photo editing, without being

limited to working only at a desk.

Colors that reflect reality

The Kamvas 13 (Gen 3) offers 99% coverage of the sRGB and Rec.709 color space, as well as 90% Adobe RGB, for accurate color reproduction in a variety of work environments. Each device undergoes factory calibration ($\Delta E < 1.5$), and the result is confirmed by the included report - so you can be sure you're working with the right precision right out of the box.

PenTech 4.0 stylus - draw like on paper

Included is the PW600L stylus, based on PenTech 4.0, which combines smoothness, stability and super-sensitivity: 16384 levels of pressure, $\pm 60^\circ$ tilt angle, > 260 PPS reading frequency, 5080 LPI resolution and response as low as 2g force. In addition, the stylus has 3 side buttons and a dust-resistant silicone non-slip grip, and a reduced tip reduced to 0.35mm improves the visibility of each line.

Canvas Glass - a texture that makes a difference

The screen is covered with a new version of anti-glare Canvas Glass, which eliminates glare and grain while offering a paper-like texture that gives a natural feel when sketching. Full lamination further enhances precision - the cursor follows the stylus tip precisely, without annoying shifts.

Dials and buttons that streamline your workflow

Kamvas 13 (Gen 3) is equipped with 2 function dials and 5 programmable buttons with different tactile finishes that help you quickly change tools, zoom, undo or jump between layers. The knobs can be easily rotated (they gently protrude from the case), improving control and speed of work. Ideal for right- and left-handed users.

Two modes of operation - even more possibilities

The tablet works in both pen display mode and pen tablet mode, giving you more flexibility - especially during long drawing sessions when you don't want to tire your eyes.

Stable connection and wide compatibility

Kamvas 13 (Gen 3) offers dual connectivity - 3-in-1 and full-function USB-C. It can be connected to a computer, laptop, as well as an Android smartphone (USB 3.1 + DP 1.2). The tablet works with Windows 10+, macOS 10.12+, Linux (Ubuntu 20.04 LTS) and supports all popular graphics programs, including Photoshop, Illustrator, Clip Studio Paint, SAI, Krita and more.

Included

- graphics tablet x 1
- 3-in-1 cable (1.8 m) x 1
- USB-A extension cable (1.2 m) x 1
- PW600L digital stylus x 1
- PH06 stylus holder x 1
- PN06 c 10 cartridge (included in the stylus holder)
- ST300 stand x 1
- cleaning cloth x 1
- glove x 1
- quick start guide x 1

Manufacturer	Huion
Model	GS1333
Color	Sakura Pink□ Cosmos Black
Dimensions	361.21 x 202.77 x 11.7 mm
Working area	293.8 × 165.2 mm
Net weight	865g
Touch	-
Stand	ST300
Input voltage	AC 100-240V, 50/60Hz
Output voltage	5V 2A

Operating temperature and humidity	0-40°C □ 20-80%
Storage temperature and humidity	-20°C~60°C□ 10-90%
Compatible with operating system	Windows 7 or later, macOS 10.12 or later, Android (USB3.1 DP1.2 or later), Linux (Ubuntu 20.04 LTS)

Screen

Resolution	1920 x 1080□ 16:9□ FHD
LCD type	IPS 60 Hz
