

SANDISK Extreme pro Dual Drive 512GB Metal Dual Drive 1000/900MB/s USB TypeC + T

Model: SDDDE1-512G-G46

Manufacturer: SANDISK

EAN: 619659204600

Product Code: 1178129

R4,394

The SanDisk Extreme PRO Dual Drive features a compact design that offers performance and versatility in a USB flash drive. With a storage capacity of 512 GB, this drive is suitable for professionals and everyday users alike, allowing space for photos, videos, and important documents. The USB-C 3.2 Gen 2 interface provides read rates of up to 1000 MB/s and write rates of 900 MB/s, ensuring data transfer is quick and efficient, whether moving large files or backing up data. Designed for convenience, this drive includes a swivel design and a key ring loop, making it easy to attach to a keychain or bag for on-the-go access. It operates within a temperature range of 0°C to 45°C, enhancing reliability in various environments. Additionally, the built-in 128-bit AES encryption algorithm ensures sensitive data is securely stored and protected from unauthorized access.
