The SanDisk Phone Drive is a versatile USB flash drive designed for efficient storage solutions. With a generous storage capacity of 512 GB, it offers ample space for photos, videos, and important files, making it ideal for both personal and professional use. The USB-C 3.2 Gen 1 interface ensures quick data transfer with a read rate of 150 MB/s, enabling users to access their files with ease. The inclusion of a key ring loop adds convenience, allowing for easy attachment to keys or bags for on-the-go accessibility.

Designed to operate in a range of environments, this flash drive functions optimally between 0°C and 45°C. This adaptability makes it suitable for various conditions, ensuring that data is protected and accessible when needed. The SanDisk Phone Drive exemplifies a practical storage solution that meets the demands of modern digital life.
