HP EliteBook 8 Flip G2i Notebook Next Gen is a versatile 13.3-inch convertible designed for professionals who need a flexible device for both focused work and on-the-go collaboration. The 360° flip design and responsive LED touchscreen support laptop and tablet modes for note taking, presentations, and creative tasks. Built for modern workflows, the system combines Intel Core Ultra 5 multicore processing with Intel AI Boost and a dedicated NPU to deliver responsive on-device AI experiences, while LPDDR5X memory and fast connectivity options help maintain smooth multitasking and peripheral support. Security and durability are prioritized with HP Sure Platform, HP Tamper Lock, HP DriveLock, MIL-STD-810H testing, and Low Blue Light certification, and the device includes multiple USB-C and Thunderbolt 4 ports with Power Delivery for reliable charging and
