Product Code: 1178158

R65,327

The HP EliteBook 8 G2i Notebook Next Gen is crafted for professionals seeking performance and flexibility. Featuring a robust 8-core Intel Core Ultra 5 processor, it ensures swift operation for demanding tasks. With 512 GB of SSD storage, data retrieval and applications run smoothly, allowing for efficient multitasking. The 1920 x 1200 resolution IPS display provides vibrant visuals, making it ideal for presentations and multimedia projects.

Equipped with advanced audio capabilities, the notebook includes dual stereo speakers with Realtek AI noise reduction and two microphones with AI noise reduction. This ensures clear communication during virtual meetings. The device incorporates multiple security features such as a fingerprint reader and an IR camera, providing peace of mind while protecting sensitive data. The HP EliteBook
