SPLIT THE ATOM AND GET GAMING

The Turtle Beach® Atom Mobile Game Controller is built for immersive cloud gaming on Android smartphones with a low latency Bluetooth® connection and console style controls.

COMPACT & COMFORTABLE

The Atom magnetically fuses into a convenient, compact shape to fit in your pocket, or in the included carrying bag. Plus, an ergonomic handle shape and console-style controls provide a familiar

console experience to mobile.

LOW LATENCY BLUETOOTH CONNECTION

The Atom connects to your Android device via Bluetooth connection and is formed from two independent modules that are connected via proprietary 2.4 GHz wireless link.

CONSOLE LEVEL CONTROLS

Atom is equipped with all the familiar controls you're used to on an Xbox controller. Full-size thumbsticks, d-pad, bumpers, triggers and ABXY buttons give precise responsive controls on any cloud streaming title.

BUILT FOR CLOUD GAMING

Take the console experience on-the-go and play familiar mobile games on the cloud using Xbox Game Pass, GeForce Now, Steam Link, and more.

ADJUSTABLE PHONE CLAMPS

Integrated phone clamps snugly fit most Android smartphones while in their cases. An ingenious two-piece design works with phones between 67-92mm in width, and a depth range of 6-10.5mm.

MORE GAMING, LESS CHARGING

Each controller module is powered by its own battery cell, giving you 20-hours of total battery life on a single charge. When it is time to charge, the Atom quickly recharges in just 2.5 hours using the supplied USB-C cable.

ERGONOMIC DESIGN

A comfortable shape with familiar console controls keeps your hands comfortable over long gaming sessions
