In workplaces where data security is non-negotiable, the Lenovo USB-A Wired Smartcard Keyboard 5000 is your best choice on trusted authentication. Its integrated Smartcard reader meets industry security standards and works with most mainstream Smartcards. The keyboard is built for durability, from repeated Smartcard insertion to key longevity. With a full-size layout, convenient function hotkeys, and Copilot key, productivity comes naturally. Stronger security, smarter workflows, and a clean, modern desk experience - all in one purpose-built keyboard.
