

SANDISK NAS 800 NVMe SSD 960GB M.2 2280

Model: SDSNP2960GAN-000E0

Manufacturer: SANDISK

EAN: 619659234607

Product Code: 1179199

R8,183

SanDisk NAS 800 is a high-performance internal M.2 2280 NVMe SSD designed for always-on network storage and demanding data environments. It delivers sustained performance for heavy read and write workloads through PCI Express 5.0 x4 connectivity, high random IOPS, and large internal transfer rates, helping maintain responsive access to files and applications. With 960 GB capacity, enterprise-grade endurance, hardware encryption, and continuous 24x7 operation support, the drive provides durable, secure storage for NAS systems and other storage platforms that require reliable, consistent performance.
