# SANDISK NAS 800 NVMe SSD 3.84TB M.2 2280

Model: SDSNP2384TAN-000E0

Manufacturer: SANDISK

EAN: 619659234928

Product Code: 1179201

## R26,853

SanDisk NAS 800 is a high-performance NVMe SSD designed for continuous, data-intensive NAS environments. It delivers fast sequential and random performance to accelerate file transfers, virtualization workloads, and database operations, while its PCI Express 5.0 x4 interface helps maximize throughput. The drive combines large 3.84 TB capacity with enterprise-grade endurance and 24x7 operation support to keep storage systems running reliably under sustained loads. Hardware-based TCG Opal encryption and a DRAM-backed cache help protect data and maintain consistent responsiveness, and robust shock, vibration, and temperature tolerances support demanding deployment conditions.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
