

## **SANDISK NAS 800 NVMe SSD 7.68TB M.2 2280**

Model: SDSNP2768TAN-000E0

Manufacturer: SANDISK

EAN: 619659234935

Product Code: 1179202

## **R53,090**

SanDisk NAS 800 is a high-capacity NVMe solid-state drive designed for always-on networked storage and demanding data-center workloads. It delivers a balance of sustained performance and reliability for multi-user environments, helping maintain responsive access to large datasets and virtualized storage. Built with PCI Express 5.0 x4 interface, 3D TLC NAND, and advanced caching, the drive supports fast sequential and random transfers while providing enterprise-level endurance and continuous 24x7 operation. Hardware encryption and broad compliance certifications help protect data and simplify deployment in regulated environments.
