

SANDISK NAS 600 SATA SSD 1TB 2.5-Inch

Model: SDSNS2100TAB-000G0

Manufacturer: SANDISK

EAN: 619659234584

Product Code: 1179204

R7,448

SanDisk NAS 600 is a 2.5 inch internal solid-state drive engineered for continuous network-attached storage use and always-on environments. It delivers fast data transfers and responsive performance for file serving, backups, and multi-user access, supported by sustained internal data rates and strong random IOPS. The drive combines 3D NAND with an SLC cache to balance speed and efficiency, and offers 1 TB of usable capacity and an endurance rating that helps support frequent writes over its service life. Low power draw in active and sleep modes, broad compliance certifications, and high MTBF contribute to reliable day-to-day operation in rack or desktop NAS systems.
