The SanDisk Optimus GX PRO 850P is an internal hard drive designed for performance and reliability. With a capacity of 4 TB, this M.2 2280 solid-state drive utilizes PCI Express 4.0 x4 (NVMe) technology, ensuring data transfer speeds of up to 7300 MBps for read and 6600 MBps for write operations. Built with 3D triple-level cell (TLC) NAND flash memory, it contributes to the drive's endurance of 2400 TB.

Incorporating an integrated heatsink, this SSD is equipped to manage thermal output, making it suitable for environments with temperatures ranging from 0°C to 85°C. Additionally, the drive features shock and vibration tolerance, able to withstand up to 1500 g of shock acceleration during operation. With a mean time between failures (MTBF) of 1,750,000 hours and compliance with various international standards, the SanDisk Optimus GX PRO 850P is a choice for heavy workloads and demanding applications.
