
LENOVO ThinkPad P16s G5 AMD Ryzen AI 9 HX Pro 470 16inch WUXGA Touch 64GB 1TB RTX PRO 2000 8GB 5G-UPG W11P 3yPS Co2

Model: 21XG005DMH

Manufacturer: LENOVO

Product Code: 1179232

R124,736

The Lenovo ThinkPad P16s Gen 5 is designed to meet the demands of professionals with its robust capabilities and high-performance specifications. Equipped with a 16-inch display that features a 16:10 aspect ratio, this mobile workstation offers an anti-glare surface and low blue light technology for extended viewing comfort. With a brightness of 500 cd/m2 and a screen-to-body ratio of 89%, it delivers clear visuals for intense work sessions. The laptop's advanced audio setup includes Dolby Voice and Dolby Atmos, providing a rich sound experience for video calls and multimedia presentations.

Powered by an AMD Ryzen AI 9 HX PRO processor and featuring integrated artificial intelligence, this notebook boasts a 12-core architecture and a maximum turbo speed of 5.2 GHz. Coupled with 64 GB of LPDDR5X RAM and a high-speed 1 TB PCIe NVMe SSD, users can expect smooth multitasking and rapid access to files. With extensive connectivity options, including two Thunderbolt 4 ports, USB 3.2, HDMI, and a headphone/mic combo jack, the ThinkPad P16s Gen 5 is versatile enough to accommodate various peripherals while also supporting advanced networking standards like Wi-Fi 7 and Bluetooth 5.4.
