The Lenovo ThinkPad P16 Gen 3 21RQ is a mobile workstation designed for professionals who need reliable performance and accurate visuals on the go. It combines a 16-inch 16:10 anti-glare display with Eyesafe technology and X-Rite factory color calibration to support extended workdays with reduced eye strain and consistent color reproduction. The integrated Core Ultra 7 processor with 20 cores and dedicated GDDR7 graphics, together with an Intel AI Boost neural processor, help handle complex tasks and AI-accelerated workflows while remaining portable.

Connectivity and expandability support demanding workflows with dual USB 3.2 Gen 2 ports, HDMI
