HA-S36W wireless Bluetooth on-ear headphones are lightweight and comfortable, and provide a secure fit, allowing you to enjoy music for long periods without any discomfort.
One of the standout features of these headphones is the impressive battery life. With up to 35 hours of wireless listening time, you can immerse yourself in your favourite tunes without worrying about the battery running out. And when it's time to recharge, the high-capacity rechargeable battery only takes 3 hours to fully charge, ensuring you get back to your music quickly.
