Unrivalled clarity. For the fast and focused.

INZONE H9 II | Premium Wireless Noise Canceling Gaming Headset

Developed with Fnatic, the H9 II delivers pro-level clarity with carbon composite drivers and advanced noise canceling. At just 260g, it's built for long play, with a boom mic that cuts ambient noise and dual wireless connectivity to keep game and chat in sync.

Designed in the heat of competition. From mic tuning to sound isolation and fit, Fnatic's feedback shaped every detail for elite performance.

Superior sound inside

Built with the same drivers as the acclaimed Sony WH-1000XM6, the H9 II delivers full-spectrum clarity, from distant footsteps to deep, unsettling rumbles. Stay focused in the game with strong noise canceling performance.

Sound that sharpens your shot

Powered by a carbon composite diaphragm, the H9 II delivers powerful, detailed sound that helps FPS players track movement and anticipate the next shot.

Stay locked in with noise canceling

Whether it's PC fans, AC hum, or nearby construction, the H9 II Dual Noise Sensor Technology silences it, so you stay fully in the game.

Fnatic EQ presets

Developed with Fnatic's VALORANT and Apex Legends teams, this custom EQ profile is tuned for the sounds that matter—spikes, footsteps, and every clutch play.

Dominate every direction with 7.1-channel audio

Virtual 7.1 surround processes multi-channel audio to deliver a spacious, directional sound field through stereo output—helping you sense movement, direction, and depth with greater clarity.

Focused voice. AI-optimized clarity.

A flexible, detachable mic with AI noise cancellation for crystal clear comms. With Super Wide Band, every callout sounds crisp and competition-ready.

More range. More real.

Natural, clearer calls. Wider range audio captures voice tone more naturally, so you sound the way

you should.

Clear voice with adjustable cardioid mic

The cardioid boom mic focuses on your voice—angled toward your mouth to cut side noise. Its long, flexible arm stays right where you set it.

AI-optimized mic cuts background noise

Ambient noise, like fan hum, gets filtered out with AI-optimized precision, so your teammates always hear your voice loud and clear.

Intuitive EQ with INZONE Hub and Sound Connect app

Set game-specific EQ presets with the INZONE Hub for PC.4 For PlayStation®5, adjust manually via the Sound Connect mobile app.

Lightweight design, optimal comfort

At as little as 260g (without mic), its lightweight build and pressure-balanced structure reduces fatigue and hotspots, keeping you focused from warmup to overtime.

Lightweight for extended gameplay

Weighing just 273g with the mic (approx. 260g without), the H9 II is 17% lighter than its predecessor - reducing strain and keeping you focused through extended play.

Freely adjustable headband for perfect fit

This unique headband structure adapts to your head shape, ensuring optimal balance and pressure distribution for long hours of play.

Low latency and 30-hour battery life

2.4GHz USB-C dongle delivers low-latency wireless connection. Easily pair with mobile device via Bluetooth® or LE Audio.¹ All with up to 30 hours of battery life between charges.

Simultaneous connection for chat and gameplay

Connect via 2.4GHz USB-C® dongle for low-latency gaming while using Bluetooth® to keep connected to chats and more.¹ Stay in sync with your team, no matter the platform.

Up to 30-hour battery with in-play charging

Get up to 30 hours of playtime on a full charge. And when you're low, just plug in and keep playing—plus, a quick 5-minute charge gives you up to 1 hour of play.²

Stay in control of chat and comms

Easily adjust your voice balance or mute yourself mid-match on your PC. Controls are positioned for fast, intuitive use without breaking focus.

Wired mode with noise canceling

The H9 II's noise canceling works in both wireless and wired modes. Choose the connection that suits your latency needs, movement, devices, or style.
