The HPE Networking Instant On 1940 is designed to provide reliable Gigabit Ethernet networking for small- to medium-sized businesses. With four 10/100/1000 Base-T ports and additional SFP+ connectivity, it ensures flexibility in connecting various devices, all while supporting Power over Ethernet (PoE) with a robust 370 W capacity. This switch enables a seamless user experience by delivering high-speed connections and eliminating the clutter of multiple power adapters, as it powers devices such as IP cameras and wireless access points directly through the network cable. Constructed with reliability in mind, this switch offers performance in handling network traffic, making it a choice for businesses requiring efficient data transfer. Its easy setup and management allow IT professionals to quickly configure the network, ensuring minimal downtime and effective
