After extensive studies in advanced ergonomics, the MMWERGO is designed with the perfect natural tilt angle for resting your palm, and includes finger rests on both sides, without forcing an unnatural turn at the wrist. The surface also has a pleasant soft-touch finish that increases grip. The result is perfect ergonomics that will make you feel so comfortable that you won't want to go back to traditional mice.

MULTIPLATFORM WIRELESS

Includes a USB wireless receiver that is housed in the bottom of the mouse. The receiver and mouse feature the most advanced 2.4GHz wireless transmission technology, developed to guarantee minimal lag and emit a constant reliable signal avoiding Bluetooth interference problems. All this with incredible multi-platform compatibility: PC, MAC, PS5, PS4, XBOX ONE, XBOX SERIES XS...

3200 DPI OPTICAL SENSOR

The MMWERGO guarantees total speed and precision in every movement with a 3200 DPI optical sensor and up to 3 different profiles of 800, 1600 and 3200 so you can regulate the intensity of your movements. Decide which profile best suits each situation and change it comfortably with just a button located next to the scroll wheel.

KAILH MECHANICAL SWITCHES

To achieve the best precision of use, we incorporated the best professional mechanical switches from the prestigious brand KAILH. These offer an unbeatable keystroke at all times, transmitting your orders with maximum speed and precision. In addition, they have the longest durability of mechanical switches available, thus prolonging the useful life of your mouse to the maximum.

ENERGY SAVING

The MMWERGO has a built-in standby function that turns off the optical sensor when not in use, and we have dispensed with lighting to minimise power consumption and maximise battery life. In addition, the MMWERGO mouse runs on AA batteries to avoid the problems caused by continuous use of the rechargeable battery. Unlike built-in lithium batteries that wear out over time and end up rendering your peripheral useless, battery power will allow you to use your wireless mouse like new,
