Experience the comfort and efficiency that only a professional vertical ergonomic mouse can offer. The MMW-ERGOPRO is designed with your well-being in mind, providing a natural vertical angle that reduces strain on your wrist and arm, allowing you to work or play for long periods without discomfort. The advanced ergonomics of the MMW-ERGOPRO mouse are the secret behind its exceptional comfort. Forget about repetitive strain injuries and enjoy ergonomic comfort at its finest.

AVAILABLE IN 2 VERSIONSBLACK AND WHITE

Choose the one that best suits your setup.

2.4GHZ WIRELESS MOUSE

The MMW-ERGOPRO mouse takes the wireless experience one step further by offering solid performance and reliable connectivity thanks to the included 2.4GHz wireless receiver. The receiver and mouse feature the most advanced 2.4GHz wireless transmission technology, developed to ensure minimal lag and deliver a constant reliable signal avoiding interference problems. Forget about the tangles and complications of cables, as this wireless mouse gives you the freedom of movement you need without sacrificing precision.

MAXIMIZE AUTONOMY

Designed with a built-in standby function, the optical sensor automatically switches off when not in use. Plus, to minimize power consumption and maximize battery life, we've dispensed with the backlight. Instead of relying on rechargeable batteries that can deteriorate over time, the MMW-ERGOPRO computer mouse runs on AA batteries, ensuring you get optimal performance for years to come. AA batteries* ensure your wireless mouse works like new, without worrying about battery degradation.

MULTIPLATFORM COMPATIBILITY

Enjoy exceptional multi-platform compatibility: PC, MAC, PS5, PS4, XBOX ONE, XBOX SERIES XS... This mouse adapts to your needs no matter the platform.

PRO-GRIP FOLDED DESIGN

The MMW-ERGOPRO’s Pro-Grip folded design ensures a perfect, comfortable grip, allowing you to maintain control with every move. Whether you’re working or taking on big challenges in your favorite game, this ergonomic mouse with a 60° vertical angle adapts to you, giving you the stability and confidence you need to succeed.

3200 DPI OPTICAL SENSOR and HUANO SWITCHES

Make every move count with our high-precision 3200 DPI optical sensor. Plus, you can customize your experience with DPI selection between 1200, 2400, and 3200, allowing you to tailor cursor speed and precision to your specific needs in every situation. When it comes to performance, every detail counts. That’s why we incorporated HUANO switches, known for their durability and fast response, meaning your clicks will always be crisp and consistent.
