

TP-Link XX530V wireless router Gigabit Ethernet Dual-band (2.4 GHz / 5 GHz) Black

Model: XX530V

Manufacturer: TP-LINK

EAN: 8885021370811

Product Code: 1181400

R2,794

Next Wave of WiFi 6 for Upgraded Home Connectivity

AX3000 Dual-Band WiFi 6 GPON Router

Dual-Band WiFi 6 Up to 3.0 Gbps

Wi-Fi 6 (802.11ax) technology brings faster speeds, less lag, and higher capacity, enabling more simultaneous connections on your home network. Every application feels more fluid with drastically improved WiFi speeds. Both the 2.4 GHz band and 5 GHz band get upgraded to the latest generation—perfect for 4K/8K streaming, online gaming, and fast downloading.

More Connections at High Speed

Easily handle dozens of devices streaming and gaming at the same time. OFDMA and MU-MIMO future-proof your home network by providing greater capacity to connect more devices.

OFDMA

OFDMA separates a single spectrum into multiple units and enables different devices to share one transmission stream, increasing efficiency and reducing latency.

MU-MIMO

Simultaneously transfers data to multiple devices for 2× faster performance.

Extensive WiFi Coverage

High-performance dual-band antennas and beamforming technology combine to adapt WiFi coverage to perfectly fit your home and concentrate signal strength towards every device.

Smart Mesh WiFi with Greater Flexibility

Create a unified mesh WiFi network with other EasyMesh-compatible router or mesh AP for seamless whole home coverage.

Whole Home Coverage

Eliminate weak signal areas with WiFi coverage for your entire home

Seamless Roaming

Uninterrupted streaming when moving around your home

One WiFi Name

No more switching WiFi network names when you walk around

Versatile Connectivity

With multiple connection ports, XX530v provides you with a variety of internet connection options. The PON port delivers up to 2.5 Gbps internet access, catering to your high-speed home. The Ethernet WAN/LAN port supports wired connections to modems or switches via Ethernet cabling. A 3G/4G dongle can be attached to the USB port as a backup to always stay connected.

Convenient VoIP Calls over the Internet

XX530v integrates a high-performance phone system. You can connect your analog phone to the router with voicemail storage and various VoIP call features, such as caller ID, call waiting, call holding and call forwarding to surpass traditional landlines.

Gigabit Wired Connections and Fast Media Sharing

The Gigabit Ethernet ports allow you to take full advantage of your broadband speed up to 1 Gbps. Plug your PCs, smart TVs, and game consoles into one of the Gigabit Ethernet LAN ports (including the WAN/LAN port) for reliable wired connections. The USB port can be used to share files, music, and videos within your network at high speeds.

WPA3 Security

Higher password safety and enhanced protection against brute-force attacks†

Parental Controls

Block inappropriate content and restrict time spent online

Multi-SSID

Create separate networks for visitors and keep your main network secure

Easy to Set Up and Use

You can set up your device and network in minutes, whether you prefer the powerful Aginet app or the intuitive web interface. The Aginet app allows you to manage your network from a smartphone or tablet.

Centralized Remote Management
