Lenovo ThinkPad T16 Gen 5 22AN is a 16-inch business notebook designed for professionals who need balanced performance, dependable security, and a reliable set of connectivity options. It delivers responsive everyday computing powered by a 6-core AMD Ryzen 5 processor and integrated AMD Radeon 740M graphics, while a PCIe 4.0 NVMe SSD and DDR5 memory provide fast app loading and multitasking responsiveness.

The WUXGA IPS display with 400 cd/m2 brightness and anti-glare coating supports clear viewing in varied lighting, and the built-in 5 MP webcam with Windows Hello and privacy shutter helps maintain secure and natural collaboration. A suite of security features including TPM 2.0, fingerprint reader, smart card reader, and a Kensington nano security slot protects data and device access.

Durable materials and MIL-STD-810H testing support everyday mobility, while a broad set of ports including two Thunderbolt 4 with 100W power delivery, HDMI, RJ-45, and USB 3.2 give flexible connectivity for docking, peripherals, and external displays. Long battery support via USB Power Delivery and energy efficiency certifications such as ENERGY STAR and EPEAT Gold help reduce power consumption in mixed work environments.
