available in single module capacities of 8GB - 32GB and kits of 2, 4 and 8 with capacities of 16GB-256GB. Renegade DDR4 is Intel XMP certified with profiles that are optimised for Intel’s latest chipsets – just select the hand-tuned profile in your BIOS and you’re ready to go. 100 per cent factory tested at speed and backed by a lifetime warranty and over 30 years of expertise, dependable Renegade DDR4 gives you the best of both worlds: extreme performance and maximum peace of mind.

High speeds paired with low latencies for insane performance

With speeds of up to 5333MT/s1 paired with quick CL12–CL20 timings to help your AMD- or Intel-based system power through games, video editing and broadcasting, Renegade DDR4 is the choice for overclockers, PC builders and gamers.

Optimised for Intel with XMP

Intel Extreme Memory Profile technology makes overclocking a breeze. Simply select one of the built-in, hand-tuned profiles in your BIOS to get the benefits of overclocking without having to manually adjust the memory timings yourself.

Ready for AMD Ryzen™

Get memory that’s Ready for Ryzen and will seamlessly integrate with your AMD-based system. A reliable, compatible performance boost for your build.

Fierce black aluminium heat spreader

The dense black aluminium heat spreader and matching black PCB keep your rig running and looking cool.
